The above information is provided for informational purposes only. It is not a guarantee of performance for your particular product. Numbers are based on Flash Max internal testing which was repeated 10 times for each product and averaged. The performance of your particular product may be different than the above referenced numbers depending on charging voltage, number of start-ups and a wide variety of other factors. Full charge time is the time to fully charge video brochure using 2.4A USB charger. Discharge time is based on continual play time when opened and video left to continually play until battery was drained. The expected time is what you should expect from actual real-world conditions when brochure is opened and closed often, etc. This should be used only as a guide when deciding on the battery for your video brochure project.

Please feel free to contact us at (949) 750-9950 if you have any questions or need help with your battery choice.
